 Thinks

Major groups grown in india
rice,wheat,millets
etc...

The agriculture
sector of india
occupied 47%
geographical
area

1997-98 was the
year with least
production and
2018-19 was the
best crop
production in india

Punjab has
better
techniques
in india.

Unable to pay
bank loans is
a major
problems for
farmers

Asia, China,and
Japan have
better Irrigation
Techniques.

**INDIA'S AGRICULTURAL CROP
PRODUCTION ANALYSIS
(1997-2021)**

Produces of
Milk,Pulses
and Spices.

Increase in
the Demand
for Food.

Farmers should
be given right
to decide the
price of their
products.

Lack of
Manure and
Fertilizers.

Punjab
Creates
Green
Revolution.

Bank are not
providing
proper
financial help
